DESCRIPTION

Enna LED Wall Sconce is a light for all seasons and uses, attached to a fixture where stripped-down design meets considered engineering. A minimalist disc base holds an unobtrusive switch and anchors a well-proportioned pivoting L-shaped arm ending in a powerful LED downlight. The arm is also articulated for tilt and rotation at each end, giving it added versatility. It works great on each side of a bed, in a hallway, or in a reading nook with contemporary and transitional décor schemes.

SPECIFICATION DETAILS
