

Installation instructions:

In order to achieve the desired aesthetics, this wall lamp needs to be embedded in the wall. Before purchasing, a square hole (small size -12 inches/large size 23.8 inches) must be reserved on the wall for proper installation. Failure to do so may result in the lamp being unable to be securely mounted. We highly recommend consulting with a qualified electrician before completing your purchase to ensure seamless installation and optimal functionality.

1: Assembly of lamp body

Installation instructions:

In order to achieve the desired aesthetics, this wall lamp needs to be embedded in the wall. Before purchasing, a square hole (small size -12 inches/large size 23.8 inches) must be reserved on the wall for proper installation. Failure to do so may result in the lamp being unable to be securely mounted.
