DESCRIPTION

Leimu was inspired by modern architecture, specifically the combination of concrete and glass. Designed to mimic a flame, Leimu is a striking balance between sensitivity and strength. The streamlined design features a delicate mouthblown glass shade and a solid, concrete base. Achieving the right balance between concrete and glass required the best experts at the Iittala Glass Factory. Smooth to the touch, the handmade Leimu lamp reflects a soft, gentle light that warms any interior. Grey adds cool sophistication.
