DESCRIPTION

Pendant luminaire with five aluminum reflectors. Verner Panton's VP Globe radiates futurism like no other light. Created in 1969, the year of the first moon landing, the design of the lamp illustrates the world's new belief in technology and the future. In the midst of this atmosphere of departure and inspired by the thought of a new era, Verner Panton designed the VP Globe.

Controllability, transparency and colorfulness are the main features of the VP Globe. The acrylic glass sphere acts like an air bubble from which the light emerges. Inside the sphere, a total of five reflectors are suspended on three steel threads. These surround the centrally located light source.

SPECIFICATION DETAILS

*For custom options, consult factory for details

Fixture Dimensions	D 15.8" x H 15.8"
Light source	E14
Wattage	15W
Voltage	AC 110-240V
Color Temperature	Based on the purchase of light bulbs
CRI(Ra)	80CRI
Mounting	Ceiling
Driver Required	NO
Optional Color Temps	Buy bulbs as needed
LED Rated Life	Based on bulb life (we do not supply bulbs)
Dimming	Dimming is not supported
Finishes	White, Gold, Chrome
Shade Details	Transparent Acrylic
Material	Metal, Aluminum, Acrylic
Wire Length	78.7"
Wire Type	Black, White Coaxial Wire
Warranty	2 Yaers
